Dear Citizens of Uijeongbu,
distinguished guests from Korea
and abroad,

Welcome to COLOR OF ASIA!

Today, we gather together under the name Color of Asia.
Color of Asia is more than a festival showcasing the food,
performances, and fashion of Asian countries.

It is a global cultural platform where diverse cultures meet,
communicate, understand one another,
and learn to live together as one community.

Founded upon Shinhan University's belief that
"Future is Culture," Color of Asia reflects our commitment to
cultural exchange and diversity.

Understanding begins with simple experiences:
tasting one another's food, listening to one another's music,
wearing one another's traditional clothing,
and sharing one another's stories.

Through these experiences, understanding grows into
familiarity, familiarity into empathy, and empathy into
community. This is the vision of Color of Asia:

'Different Colors, One Community'

Different in our colors, yet united as one community.

This is why Shinhan University proudly hosts Color of Asia.
Please support us and celebrate with us.

Thank you.

President
Shinhan University

Kang Sung-jong
